# AgriTraxx™ Midrollers

## Exceed OEM Work-Life

With the industry's number 1 aftermarket provider of new and reconditioned midrollers, idlers and drive wheels

**No Bond Failures Guaranteed\*** - Proprietary bonding technology that resists heat and shear force to prevent debonding

**Longest Wear-life** - Polyurethane compound engineered to generate less heat, reduce chunking, and provide the highest cut & tear resistance

**Resist the Elements** - Unlike rubber, AgriTraxx™ Midrollers polyurethane is resistant to Oils, UV, Weak Acids, Diesel Fuel, Moisture and more

**Extend Rubber Track Life** - Lower operating temperatures reduce rubber track deterioration. Tough polyurethane will not capture debris and score the track.

**OUR WHEELS RUN BETWEEN 35-45 % COOLER THAN OE RUBBER**

Up to **34%** less cooling time

## Site Proven Performance

Tested on the same tractor, pulling dual pan scrapers

AgriTraxx™ Midrollers    Rubber Wheels

After 3000 hours of pan scraping - like new with no track damage.

After only 347 hours of pan scraping - visible excessive damage and uneven wear. Wheels have to be replaced to prevent further track damage.

AgriTraxx™ Midrollers    Rubber Wheels

Thermal image showing polyurethane's highest temperature at 117.0 °F, this lower temperature extends both rubber track and wheel wear-life.

Thermal image recorded in the same usage interval as in AgriTraxx™ Midrollers, indicating rubber's highest temperature at 161.1 °F.

## Core Exchange Program for

- AGCO Challenger® MT800
- AGCO Challenger® MT700
- Case IH Quadtrac®
- John Deere® 8RT
- John Deere® 8000T
